

Online Resources for Students 9-12

All Math Classes

- Mrs. Kort will be sending instructional videos, notes and assignments to students using school email and a shared Google folder. Students will be expected to submit work to her via email by either sending a picture of their work or using a scanner to create a digital copy.
- If students need additional help, they can email her. jkort@dorchesterschool.org
- Other resources utilized may include phone calls, zoom meetings, ...

All Science Classes

- Mrs. Niemoth will be using google classroom to provide powerpoints with videos, assignments and keys to assignments when needed. Students need to complete assignments and submit work via email by either sending a picture or using a scanner to create a digital copy of their work.
- Students should email with questions or when they need additional help.
- There are great resources online to help explain concepts. A few are Khan Academy and Crash Course.

All English Classes

- Mrs. Schutte will be using Google Classroom to provide reading instruction, journal prompts, activities, and quizzes/assessments. Every assignment has a due date that students should follow.
- Please email with any questions, students and parents:
aschutte@dorchesterschool.org
- Students should also make sure to access NoRedInk when prompted to do so on Google Classroom. It is a website dedicated to teaching students English Grammar and Writing.

Business and Technology classes

lbrees@dorchesterschool.org

Introduction to Computers

- Students will be working on Code.org (online resource)
- Materials will be sent home for reading and enrichment activities.
- Google classroom will be used, and communication will be through the school email.

Accounting 2

- Students will be working on an accounting packet (Century 21 Accounting).
- Starting the week of March 30th the class will meet on Zoom twice a week to discuss progress, and address questions.
- Google classroom will be used, and communication will be through the school email.

Advanced Accounting

- Student is currently independently working through online Advanced Century 21 Accounting.
- Starting the week of March 30th the class will meet on Zoom twice a week to discuss progress, and address questions. (With accounting students)
- Google classroom will be used, and communication will be through the school email.

Information Technology

- The class will be researching online resources to create documents and presentations on Google Docs and Google Slides.
- Starting the week of March 30th the class will meet on Zoom twice a week to discuss progress, and address questions.
- Google classroom will be used, and communication will be through the school email.

Digital Media

- The class will be accessing multiple digital tools (Docs, Slides, Canva, iMovie, etc) to produce digital projects.
- Starting the week of March 30th the class will meet on Zoom twice a week to discuss progress, and address questions.
- Google classroom will be used, and communication will be through the school email.

- Starting the week of March 30th the class will meet on Zoom twice a week to discuss progress, and address questions.
- Google classroom will be used, and communication will be through the school email.

Personal Finance

- Students are working from the text “Personal Financial Literacy”. Slides from each chapter will be sent out to students prior to starting the chapter.
- Starting the week of March 30th the class will meet on Zoom twice a week to discuss progress, and address questions.

- Google classroom will be used, and communication will be through the school email.

Social Studies Classes: Email- mray@dorchesterschool.org

- Classes will be using Google Classroom to complete enrichment activities and lessons.
 - Additional supplemental material will be provided for students that will allow them to dive deeper into the topics we discuss. This will provide them the opportunity to gain greater knowledge beyond the activities they will turn in, if they so choose.
- Students will stay up to date with current events by watching CNN10 and journaling daily about a topic of interest from the episode. This 10 minute objective look at current events provides facts and information while staying out of the political realm.
- Main forms of communication will include Google Classroom, school email (listed above), and zoom lessons as needed or upon request by students. I encourage students and parents to get in contact with me if they have any questions or concerns.
- All lessons have due dates on them and students will generally have the opportunity to redo lessons to ensure knowledge, concepts, and skills are being acquired/met.
