## *Dedication*

We, the Seniors of 1963, respectfully wish to dedicate this annual to Mr. L. J. Ekdahl, Supt. Our good friend and leader for seven years, who has helped to make our school life at Dorchester a time of happiness and success.

FACULTY

# Superintendent's Address

Class of 1963:

Since you and I are leaving the Dorchester schools together, I can't extend an invitation to you to come back and visit me. However, I do hope that you will return and see the new school addition as I hope to do.

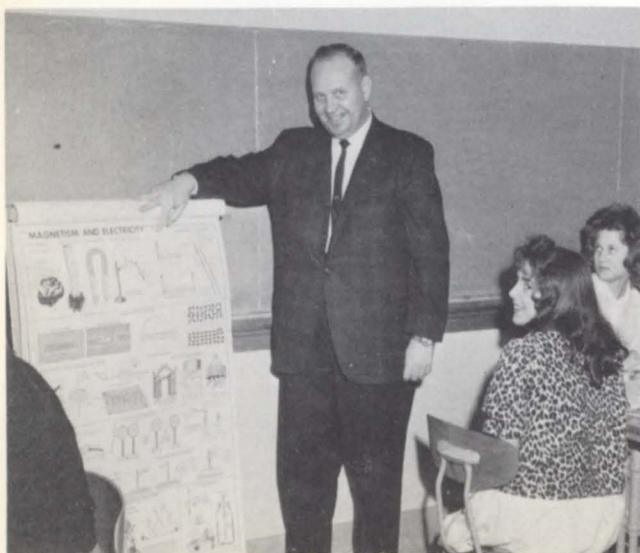

I imagine that you are carrying away some fond memories of your school days other than the ones pictured here. I know that I am. You can be sure though, that as we turn back through these pages in the future, these events and people will "live" for us. Each picture will have its own special meaning for each of us.

Good luck to you now as you start out on a new phase of your life. I hope that the future holds as many enjoyable days for you as you have had in school.

It has been a pleasure for me to work with you these past seven years. I have enjoyed watching you progress through high school. Believe it or not, I even shared and suffered through some of your disappointments too. Truthfully, you have been a grand group.

See you around!

*L. J. Ebdahl*

## *Principal's Address*

Class of 1963,

This annual will depict one of your last accomplishments of your Senior year. It has been just one of the many fine accomplishments achieved by the class of 1963.

I will be looking with much anticipation to future accomplishments that many of you will achieve. Your future accomplishments will not only represent your personality and initiative, but those accomplishments will be retrospective to the foundations for accomplishment that you have laid here at Dorchester High School.
